I got the clear sense that if addressing Tom Starr, it would buy good will to include Ann Mason since I gather he does not work on this issue without billing someone....

Not clear to me what Swenberg's relationship is with ACC. But, if including Starr, seems like there is a reason to include Ann.

David

▼ Ravi Subramaniam---12/12/2012 03:37:45 PM---Earlier you had mentioned you were comfortable with my corresponding directly with Swenberg or Starr

Subject: corresponding with Swenberg

Earlier you had mentioned you were comfortable with my corresponding directly with Swenberg or Starr. Just to give you a heads-up, the "adducts" group (Sury, Jim, Brian, Jennifer, Paul and myself) has prepared a few questions seeking clarification on the biochemistry as well as experimental issues. I am still in the process of editing it and was planning on sending it tomorrow morning to Swenberg with a copy to Starr.

Would it help copying Ann Mason also on it? Just a thought that occurred as I was writing this email.

Ravi.
